## Canine Genetic Health Certificate™

Call Name: BELLA  
Registered Name: BELLA BIBLOS PRINCESS  
Breed: Portuguese Water Dog  
Sex: Female  
DOB: Nov. 2017

Laboratory #: 144506  
Registration #: W559001205  
Microchip #: 981020025371394981  
Certificate Date: Aug. 12, 2019

This canine's DNA showed the following genotype(s):

| Disease  | Gene | Genotype | Interpretation |
|--|------|----------|----------------|
| GM1 Gangliosidosis (Portuguese Water Dog Type)                 | GLB1 | WT/WT    | Normal (clear) |
| Progressive Retinal Atrophy, Progressive Rod-Cone Degeneration | PRCD | WT/WT    | Normal (clear) |

WT, wild type (normal); M, mutant; Y, Y chromosome (male)

Helen F Smith, PhD  
Assistant Laboratory Director

Christina J Ramirez, PhD, DVM, DACVP  
Medical Director

Paw Print Genetics® performed the tests listed on this dog. See the Laboratory Report for interpretation and recommendations based on these findings. The genes/diseases reported here were selected by the client. Normal results do not exclude inherited mutations not tested in these or other genes that may cause medical problems or may be passed on to offspring. These tests were developed and their performance determined by Paw Print Genetics. This laboratory has established and verified the tests' accuracy and precision. Because all tests performed are DNA-based, rare genomic variations may interfere with the performance of some tests producing false results. If you think these results are in error, please contact the laboratory immediately for further evaluation. In the event of a valid dispute of results claim, Paw Print Genetics will do its best to resolve such a claim to the customer's satisfaction. If no resolution is possible after investigation by Paw Print Genetics with the cooperation of the customer, the extent of the customer's sole remedy is a refund of the fee paid. In no event shall Paw Print Genetics be liable for indirect, consequential or incidental damages of any kind. Any claim must be asserted within 60 days of the report of the test results. Genetic counseling is available at Paw Print Genetics.

## Coat Color and Trait Certificate

|                  |                       |                   |                    |
|------------------|-----------------------|-------------------|--------------------|
| Call Name:       | BELLA                 | Laboratory #:     | 144506             |
| Registered Name: | BELLA BIBLOS PRINCESS | Registration #:   | W559001205         |
| Breed:           | Portuguese Water Dog  | Microchip #:      | 981020025371394981 |
| Sex:             | Female                | Certificate Date: | June 24, 2020      |
| DOB:             | Nov. 2017             |                   |                    |

This canine's DNA showed the following genotype(s):

| Coat Color/Trait Test                | Gene  | Genotype | Interpretation |
|--------------------------------------|-------|----------|----------------|
| IC Locus (Improper Coat/Furnishings) | RSPO2 | F/F      | Furnishings    |

### Interpretation:

This dog does not carry the mutation for improper coat and will therefore have furnishings (proper coat). However, the overall coat type of this dog is dependent on the combination of this dog's genotypes at the L, Cu, and IC loci. This dog will pass F (furnishings, proper coat) on to 100% of its offspring.

Paw Print Genetics® has genetic counseling available to you at no additional charge to answer any questions about these test results, their implications and potential outcomes in breeding this dog.
